

New Routes - Black Range

The new routes listed below are those which have been submitted, and which are not in the existing published guidebooks (*Grampians Select*, Mentz & Tempest 1998; *The Black Guide*, Andrews 1997; the online [Black Guide update](#); etc?), and are not in the October 2003 online [Grampians PDF guide](#).

The routes here are made available on this site on an "as received" basis without any verification by the VCC. *Thus, listed routes may have inaccurate details such as grade/length/location etc, or may be entirely fictional.* If you have any information that clarifies or questions existing route descriptions, please send it in to [New Routes](#). You need JavaScript to see this content. .

Information regarding replacement/installation of bolts and abseil anchors can be found at [Safer Cliffs Victoria](#).

BLACK IAN'S ROCKS

Comments from Ben Wright:

Habeus Corpus (14)

A few of us did this and thought it more like 12. (Some did Habeus Corpus (14), GBH (14), and Minor Offence(14) and thought each harder than the last!?).

Sedgy: "I also think it is definitely not 14. 12 is probably right. "

Hard Labour (15). Serves me right for going up such a dirty slab, but I thought it more like 17.

Loitering With Intent (21), 1m right of GBH, is in the North Gramps guide (p.262) but seems to have been missed from The Black Guide and the Update.

The Hanging Variant Start 25m 10

Sedgy pointed this one out, it's not unpleasant... Start 10m right of The Hanging, bridge up the short corner, walk across the cave, step out left and up the pillar. Long sling useful to thread the window. FADU.
